Technology

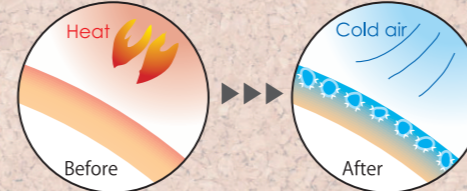

ION-PRO-TECT

ION-PRO-TECT is a technology that reinforces the entire glass by exchanging ions in glass. Ishizuka Glass's unique application know how of the ION-PRO-TECT enables to treat thin glass with complicated configurations, which conventional physical reinforcement technologies are not capable of processing.

HRT

HRT is a heat treatment technology that reinforces the entire glass. The unique technology of Ishizuka Glass minimizes the shattering of glass pieces when it is broken. HRT can be applied for items that are intended for heavy usage such as buffet services.

For Buffet

Tough and hard-wearing glassware of which glass pieces do not shatter even if it is broken.

- Rexer series ... Page 10

Reasonably priced chip-resistant glasses which are suitable for any occasions.

- H•AX Denim Forte series ... Page 9

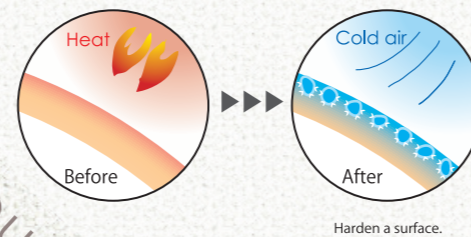

For Breakfast & Dessert

Technology

AX (ADELEX)

AX(ADELEX) is a heat treatment technology that strengthens only the rims of glasses. It reduces the occurrence of chipping at the rim, so it is desirable for frequently used items.

Cera Bake

Cera Bake is heat-resistant glassware made of borosilicate glass. Due to its ceramic coating, which is a high water and oil-repellent surface treatment, Cera Bake has the special characteristics of being non-stick and easy to clean.

セラベイク Cera Bake
Perfect bakeware for cook and clean up.

Perfect bakeware that is easy to clean. Heat-resistant and non stick bakeware.

AX

Reasonably priced chip-resistant glasses which are suitable for any occasions.

Many hotels serve buffet breakfast and dinner. Since buffet glassware is used by many guests, durability is an important factor. For example, a juice glass that can be stacked each other is convenient for a buffet setting because a large number of glasses can be placed in a small space. The ADERIA AX series is physically treated to strengthen the rims of glasses, so they are hard to break and offer superior safety.

Buffet style 2 For excellent presentation

REXER[®]

ELEGANT. VERSATILE. SAFE.

Tough and hard-wearing glassware of which glass pieces do not shatter even if it is broken.

Glassware assists in creating a superb presentation of delicious dishes. Why don't you differentiate your buffet service from other restaurants using beautiful glassware? The Rexer series provides a variety of sizes up to an extra large size, so it is ideal for serving salad and cold pasta. The products are heat-resistant and microwave-ready, and can be used for hot meals as well.

Our unique HRT technology produces first-class glassware, which cannot be created with conventional physical reinforcement methods.

セラベイク
Cera Bake

Perfect bakeware for cook and clean up.

Heat-resistant and non-stick bakeware that is easy to wash.

Cera Bake, which features special ceramic coating on heat-resistant glass, can be used as cookware intended for the oven, such as gratin dishes. Since Cera Bake glassware is non-stick, your meal's beautiful presentation can be maintained even after guests have started taking their shares, because the bottom of the dish will remain clean. Cera Bake does not require a long dish-washing time. It is the perfect glassware for buffet dishes.
